

## AEROBAR ADJUSTIBILITY CHART

<p><b>CENTURY BAR</b></p> <p><b>Extension Adjustability:</b>          Width – Not adjustable          Length – Not adjustable          Rotational – Not adjustable          Height – Not adjustable</p> <p><b>Pad Adjustability:</b>          Width – 38mm (per side)          Length – Not adjustable          Rotational – 360°          Height – Not adjustable          *Brackets have 360° rotational adjustment</p>	<p><b>CARBON STRYKE AEROBAR</b></p> <p><b>Extension Adjustability:</b>          Width – Unlimited (bound by base bar center clamp width)          Length – 120mm          Rotational – 360°          Height – Not adjustable</p> <p><b>Pad Adjustability:</b>          Width – 19mm (per side)          Length – 42mm          Rotational – 17° (+ / - 8.5 deg.)          Height – 13mm          *Brackets have 360° rotational adjustment</p>
<p><b>AIRSTRYKE AEROBAR</b></p> <p><b>Extension Adjustability:</b>          Width – Not adjustable          Length – 120mm          Rotational – Not adjustable          Height – Not adjustable</p> <p><b>Pad Adjustability:</b>          Width – 19mm (per side)          Length – 42mm          Rotational – 17° (+/- 8.5 deg.)          Height – 13mm          *Brackets are "flip up" design</p>	<p><b>JAMMER GT AEROBAR</b></p> <p><b>Extension Adjustability:</b>          Width – Unlimited (bound by base bar center clamp width)          Length – 100mm          Rotational – 360°          Height – Not adjustable</p> <p><b>Pad Adjustability:</b>          Width – 19mm (per side)          Length – 80mm          Rotational – Not adjustable          Height – Not adjustable          *Brackets also have unlimited "up/down" angle adjustment</p>
<p><b>SPLIT SECOND AEROBAR</b></p> <p><b>Extension Adjustability:</b>          Width – Unlimited (bound by base bar center clamp width)          Length – 100mm          Rotational – 360°          Height – Not adjustable</p> <p><b>Pad Adjustability:</b>          Width – 19mm (per side)          Length – 42mm          Rotational – 17° (+ / - 8.5 deg.)          Height – 13mm          *Brackets are "flip up" design</p>	<p><b>CARBON X AEROBAR</b></p> <p><b>Extension Adjustability:</b>          Width – Not adjustable          Length – 120mm          Rotational – 360°          Height – Above wing position is +35mm vs. below wing position</p> <p><b>Pad Adjustability:</b>          Width – 19mm (per side)          Length – 42mm          Rotational – 17° (+ / - 8.5 deg.)          Height – 13mm          *Brackets have 360° rotational adjustment</p>
<p><b>AEROLITE AEROBAR</b></p> <p><b>Extension Adjustability:</b>          Width – Unlimited (bound by base bar center clamp width)          Length – 70mm          Rotational – 360°          Height – Not adjustable</p> <p><b>Pad Adjustability:</b>          Width – 50mm (per side)          Length – 42mm          Rotational – 17° (+ / - 8.5 deg.)          Height – 13mm</p>	<p><b>ALUMIN X AEROBAR</b></p> <p><b>Extension Adjustability:</b>          Width – 50mm (per side)          Length – 90mm          Rotational – 360°          Height – Not adjustable</p> <p><b>Pad Adjustability:</b>          Width – 19mm (per side)          Length – 25mm          Rotational – 25° (+15 / - 10 deg)          Height – 13mm          *Brackets have 360° rotational adjustment</p>
<p><b>SONIC STRYKE AEROBAR</b></p> <p><b>Extension/Pad Adjustability:</b>          Width – Unlimited (bound by base bar center clamp width)          Length – 42mm          Rotational – 17° (+ / - 8.5 deg)          Height – Not adjustable</p>
